

## TSI's Website

The Federal Transit Administration, through the Transportation Safety Institute (TSI), Transit Safety and Security Division, offers a variety of safety and security training for the transit industry. To view all available transit safety and security training and the latest training schedule, go to TSI's website, transit section:

[www.tsi.dot.gov](http://www.tsi.dot.gov)

## CEU's

TSI has partnered with the IACET to apply Continuing Education Units (CEU's) to eligible transit safety and security training courses offered through TSI. Participants who successfully complete Effectively Managing Transit Emergencies receive 2.7 CEU's.

## TSSP & WSO Certification

Effectively Managing Transit Emergencies is one of four core courses required for the Transit Safety and Security Program (TSSP) and one of several courses available for World Safety Organization (WSO) certification. See TSI's website for more information.

There are three ways to register for a TSI class: online, fax, or mail. See TSI's website for more information regarding registration.

## Effectively Managing Transit Emergencies

### Course Elements

- Nature of Emergencies and Disasters
- Emergency Management Concepts
- Incident Command System (ICS)
- National Incident Management System (NIMS)
- Continuity of Operations Plan (COOP)
- Development of an Emergency Management Plan
- Acquisition
- Managing Media Relations
- Emergency Management Training
- Tabletop exercises, pretest, final exam

### Course Overview

This course will provide information on understanding the importance, purpose, development, and implementation of emergency management and how it relates to the other safety functions of a transit system. Participants will learn how to better understand the emergency management concept and the role of the transit system in responding to emergency/disaster situations in both the community and transit system. The course provides information which can be used to introduce emergency management into the acquisition and operational phases of a transit system life cycle and thereby implement or improve emergency management programs. Participants who successfully complete the course will receive Federal Emergency Management Agency (FEMA) Emergency Management Institute (EMI) certificates for IS-100 (ICS), IS-700 (NIMS) and IS-546 (COOP).

### 2008 Schedule

- December 3-6, 2007 Newark, NJ
- January 14-17, 2008 Sacramento, CA
- April 14-17, 2008 Charleston, SC
- May 19-22, 2008 Grand Rapids, MI
- July 21-24, 2008 Los Angeles, CA
- September 8-11, 2008 San Juan, PR

### Who Should Attend

- Security Managers
- General Managers
- Operations Managers
- Security Supervisors
- Operations Supervisors
- Emergency Medical Responders
- Risk Managers
- FEMA Responders
- Safety Managers
- Field Supervisors
- State Safety Oversight Representatives
- Emergency Plan Administrators
- Community Emergency Representatives
